Utilizing three mainstream technologies, the new BC-5380 Auto Hematology Analyzer can provide rapid and reliable tests from just 20uL of blood. In order to save time and manual handling, an autoloader is equipped to hold 30 tubes at one time and achieve 60 samples per hour throughput.

The BC-3600 Hematology analyzer features closed tube sampling via a single push button. A built-in large 10.4 inch color touchscreen allows maximum visibility. Hemoglobin analysis is performed using cyanide-free reagent. The analyzer processes up to 60 samples per hour and stores up to 40,000 results with histo-

grams.
