### Celebrating Land Rover's Unloved Range Rover P38a

Why did I buy a P38a Range Rover? I'm no stranger to the world of the four-wheel drive, having ridden in the back of long-wheel-base military Land Rover Series IIIs throughout army training, rattled around in various Defenders, owned a 2.5 V6 Freelander and even experienced the underwhelming Vauxhall Frontera 'Sport'. In 1999 the Range Rover V8 received a new Bosch engine management system from the BMW 7 Series (E38). This replaced the Lucas GEMS system. This engine is also known as the Bosch or Thor engine. It can easily be identified by its inlet manifold. The diesel edition received an EGR system, which came with a plastic inlet manifold.

OEM part number is PGK100690. This will fit 1999 through 2002 P38's. Plastic is in great condition. Tabs and areas around the tabs are all in good working order with no cracks in the plastic that are a problem with these.

An alternative procedure for getting the system out of disabled mode is to disconnect the battery, and reconnect it with the key in position II. Steve Glover of New Zealand tried this with great success on his 1999 Range Rover Autobiography. "We recently lost the only key that worked by remote on the vehicle.

It's World Land Rover Day! To mark the occasion, we take a look at the criminally underated Range Rover P38a. If you wish to experience a true love/hate relationship, buy a Range Rover P38 - although it's very much love from you, hate from it. Send the Rangie's great bulk off for a health check-up
